

I claim:

~~1. A modular deck panel for a deck structure including a plurality of support elements, said modular deck panel comprising:~~

~~a first substantially planar element being relatively inflexible; and~~

~~a second substantially planar element disposed beneath the first planar element and secured thereto, said second planar element being relatively flexible in relation to the first planar element, and said second planar element for carrying the deck panel upon at least one of the plurality of support elements of the deck structure.~~

2. A modular deck panel according to claim 1, wherein the first planar element is either a natural stone product or a cement-based product.

3. A modular deck panel according to claim 1, wherein the second planar element is a plywood structure.
